70mm Stress Balls [See product specs](#)

#1 Best Seller In Geometric shapes 555 customer reviews

Our premium 70mm round stress ball is the original promotional stress ball and still one of our best sellers. They are high quality, the perfect size and shape for squeezing and are usually available from stock in twenty three colours! The ball has a large 45mm print area on both the front and rear, and we can print using spot colours or can print in full colour using a transfer or UV process (prices on request). They have a nice squeeze and are ideal for stress relief!

WHY DO OUR CUSTOMERS TRUST US?

We're stressball specialists

For almost 15 years we have been exceeding customers' expectations. We only sell stress balls and consider ourselves experts in the sector, which means we have specialist product knowledge and large range of stock.

Free samples

Samples are available of all our stress shapes to help with your decision making.

Free visuals

Unsure of how your logo will look? Don't worry! Our designers are available to create a free pre-print visual so you can be sure your logo or message will look just like you want.

Genuine customer reviews

Take a look at our ***263*** customer reviews to read other customers honest feedback about our product, printing and service.

Dedicated account managers

Dedicated account managers, all with 10+ years of experience will guide you through every stage to ensure a smooth and stress-free experience.

No hidden extras

We don't like hidden extras, nor should you! That's why our quotes include print and set-up (where applicable) and courier delivery to your address.

HOW DO WE PRINT YOUR STRESS BALLS?

We use various print methods based on the shape and print area of the stress ball and also depending on the artwork requirement.

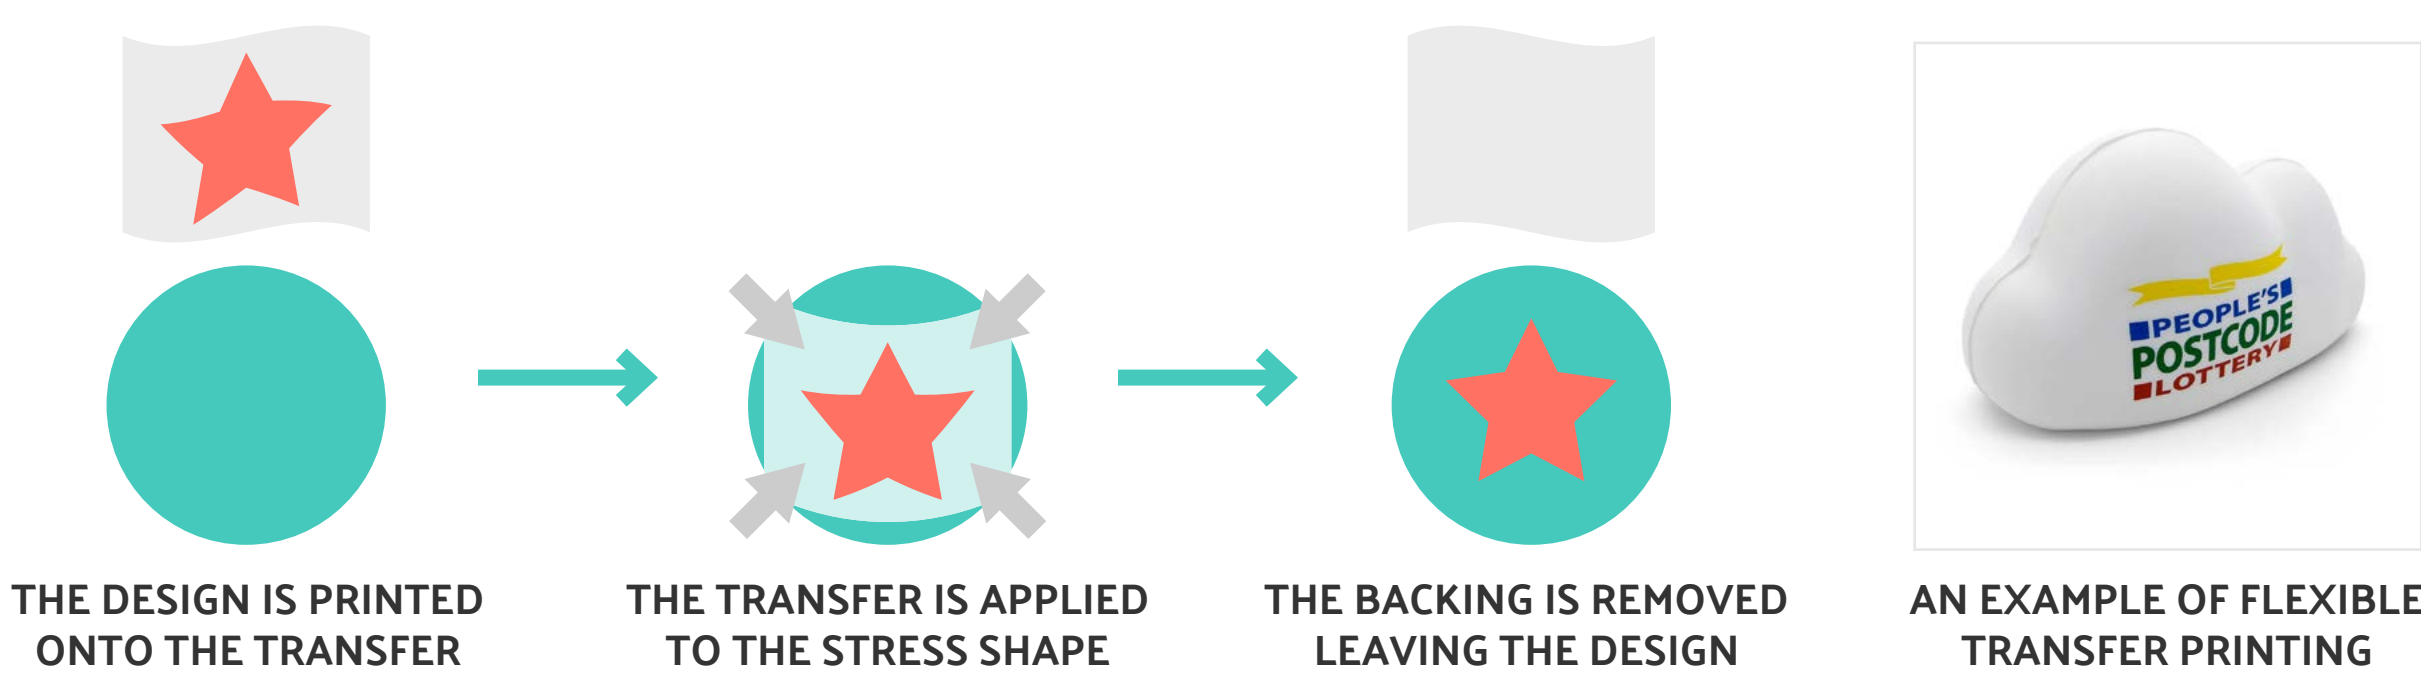

TAMPO/PAD PRINT

A tampo print is where the ink is transferred using a silicone pad (hence the common name of pad print). Due to the flexibility of the pad it allows us to print on the curve of the stress balls whilst keeping a large print area.

This is the most common print method that we use and all of the print areas on the website are based on this method. The Tampo Print machine is operated by hand and each colour is layered up individually so there may be slight movement between print colours. Solid colours can be printed using this method- no tints or gradients.

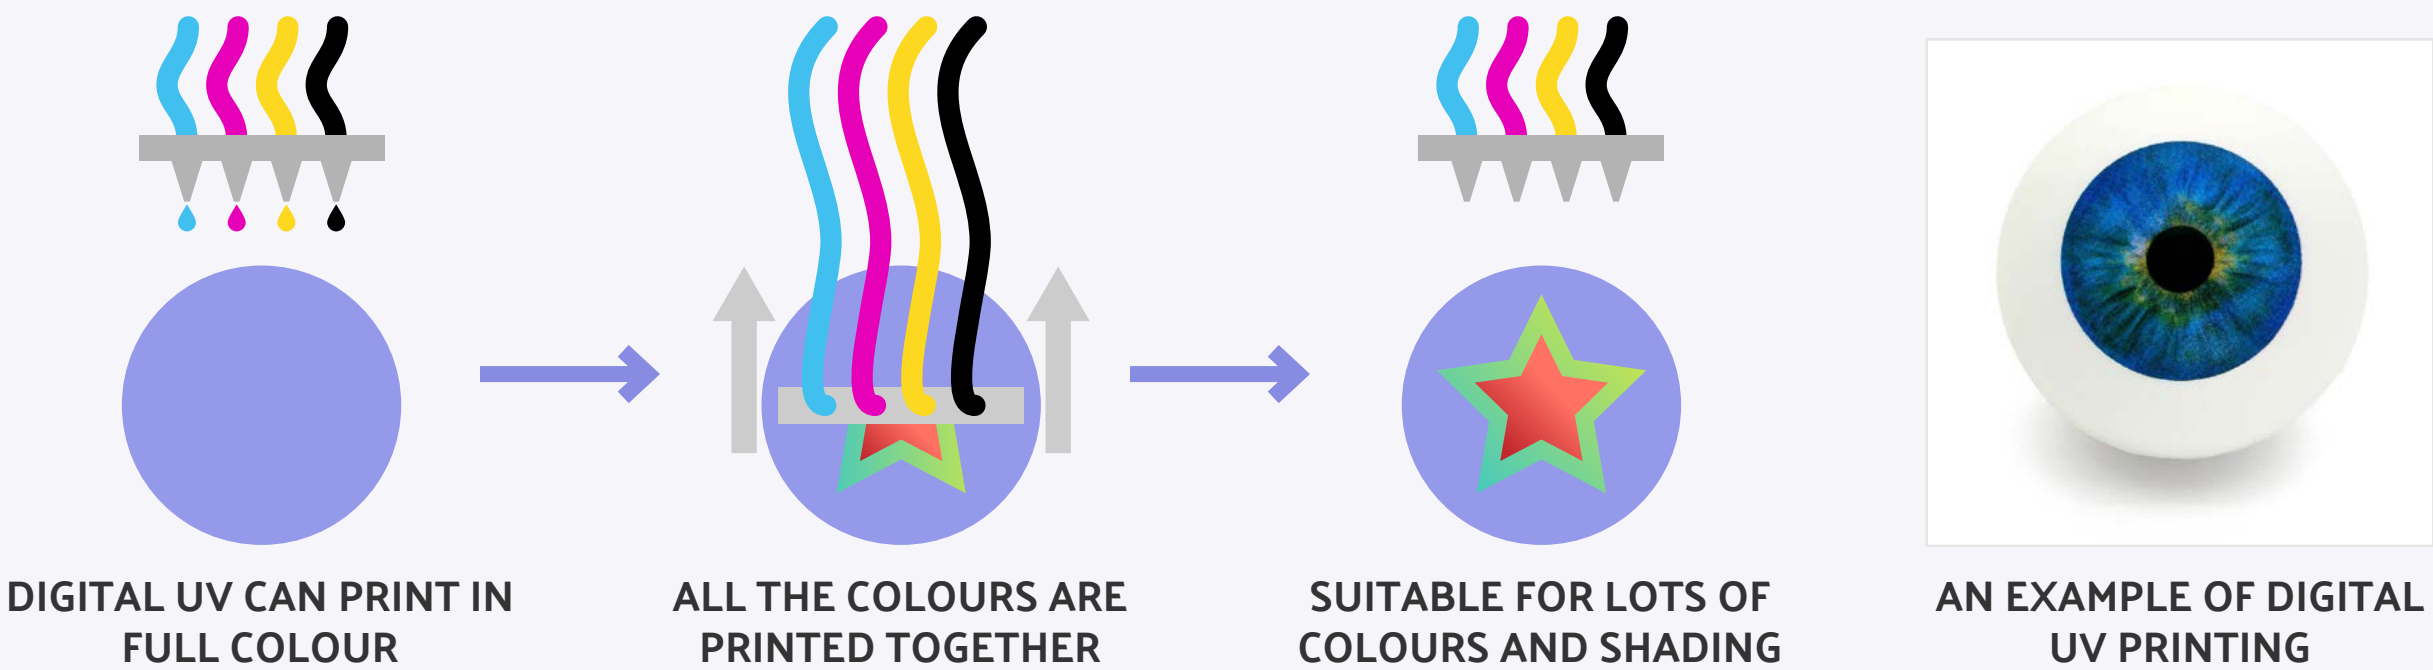

FLEXIBLE TRANSFER PRINT

All of our UK manufactured products are printed with a premium flexible transfer print which allows us to print an unlimited number of colours whilst keeping finer details and tight registration between colours. As the name suggests the flexible transfer print uses ink which is designed to flex with the surface of the stress ball.

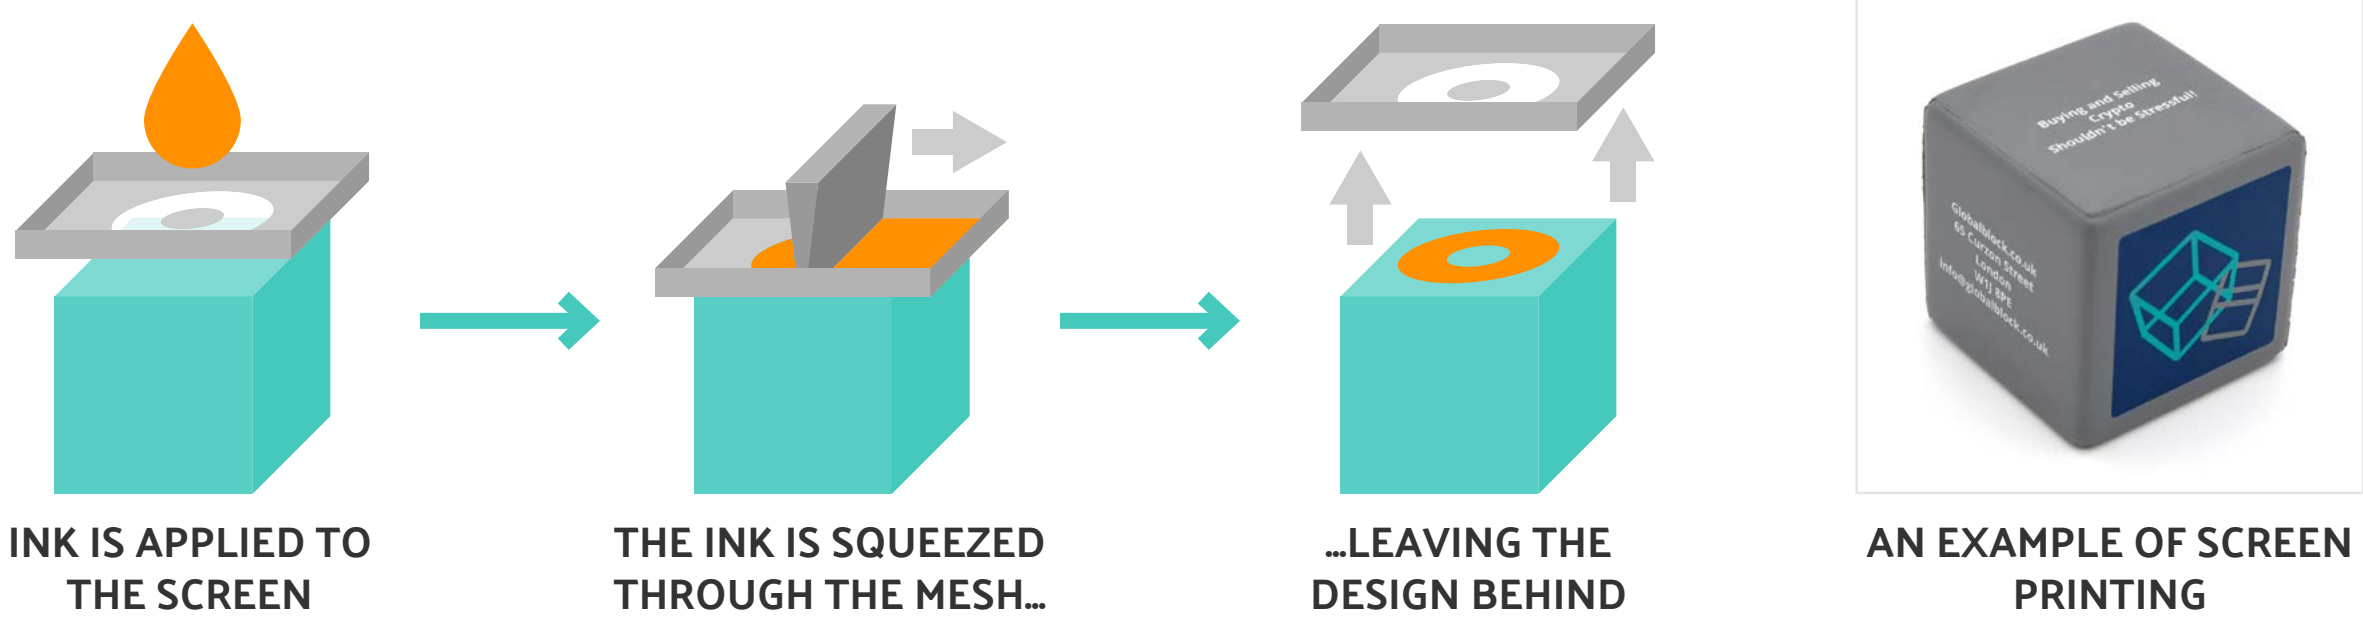

To print the stress balls the artwork is separated into individual colours and then each colour of ink is screen printed onto a transfer release paper. A heat reactive clear adhesive is then added to the back of the printed image which overlaps the ink, once applied to the stress ball this anchors the image to the item and minimises the risk of peeling. The transfer is then applied to the stress ball using a heat press, which activates the adhesive layer bonding it to the stress ball.

DIGITAL UV PRINT

Printing via digital UV Print allows us to print in full colour, including gradients and is normally available with a faster turnaround than Tampo printing. The print area with this method tends to be smaller but it is a great option for orders with lots of colours and requiring a fast turnaround. Once the stress balls are aligned into the Digital UV Printer by hand the machine then directly prints multiple colours at once. Not all shapes are suitable for digital UV Printing, please contact us to check if this option is available for your chosen shape.

SCREEN PRINT

Screen prints are ideal for stress balls with flat surfaces and are often used on the cube stress balls. A mesh screen is coated with a photo-sensitive emulsion and an image of the logo is then placed onto this. The screen is then subjected to ultraviolet light which cures the screen leaving only the logo showing through the mesh. The ink is then passed through the screen directly onto the stress ball. Only one colour can be printed at a time using this method and if multiple colours are required the process must be repeated with a new screen.

For expert advice on the best print method for your your stress balls please call us on +44 (0) 870 350 5008

HOW TO ORDER

We believe ordering stress balls should be an easy and stress-free process. That's why we have condensed the process down to six simple steps:

Our stress ball experts are here to guide you through every stage, further details of each step can be found below:

BROWSE

With over 500 products to choose from our website is the best place to see all of the different shapes that we offer. To make browsing easier you can search by category such as our best sellers or by theme such as food. If you know what shape you are looking for you can use the search bar at the top of the page.

In each category page you can refine your search further using the tab on the left of the screen. You can search by minimum order, star rating or availability.

Our experienced team are also here to help advise you if you are struggling to find the right shape for your event. You can fill out an enquiry form on the website or call us on **0870 350 5008**.

GET A QUOTE

Once you have found the perfect stress shape you can either get a quote online or by using the enquiry form.

To quote online ensure you are on the item page, select your quantity, the colour you would like the shape made in, and then click buy unprinted for plain stock or customise print to add print to the quote. If adding print once you have clicked customise print it will give you the possible print positions for that shape. Select the print position and then add the number of colours you would like for this print position. Please ensure you select a colour for each box to get the correct quote. The colours shown on the website are there as a guide and exact pantone colours will be requested at a later stage.

PLACE ORDER

If you have completed a quote online you can then add the item to your basket where it will allow you to add the artwork file, specify print colours etc. Payment will also be processed at this stage.

If you have received an email quote you can either order online using the link emailed and the process above, or you can email us the artwork, invoice and delivery address and we can process the order for you.

We ask for the artwork to be supplied as a Vector Based EPS, AI or PDF file if you have it. If you don't have these formats we can convert the artwork for you from a high-quality jpeg, although this may add to your lead time.

Payment is required upon placing the order with the only exception being government bodies such as the NHS, Universities etc who can pay upon delivery with prior agreement.

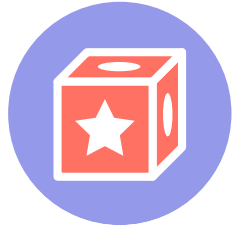

Payment methods accepted are Debit/Credit cards (VISA, Mastercard, Maestro, JCB) or BACs.

The order will be confirmed via email with the expected delivery date and a electronic copy of the VAT receipt.

APPROVE ARTWORK

Normally within a few days of the order being confirmed you will be sent a paper visual showing the artwork layout on your chosen stress ball for your approval. If not already supplied we would ask for the pantone colours for the print, if unknown we can help you choose a suitable colour.

MANUFACTURE/PRINT

Once the artwork is approved we will proceed to manufacturing and/or printing your chosen stress balls. Once printed they will go through our strict quality control process before being boxed for dispatch.

DELIVERY TO YOUR DOOR

Once dispatched we will email you a tracking link so you can track where your order is. A few days after receiving your order we will email you a review link so you can give your honest feedback and help other customers choose the right stress ball.

Need help with ordering? Just give us a call on
+44 (0) 870 350 5008 and and talk to one of our friendly staff.

HOW DO WE MAKE OUR STRESS BALLS?

Stress balls come in all shapes and sizes but have you ever wondered how they are made? We put a lot of hard work and care into our stress balls so lets take a look at exactly what’s involved

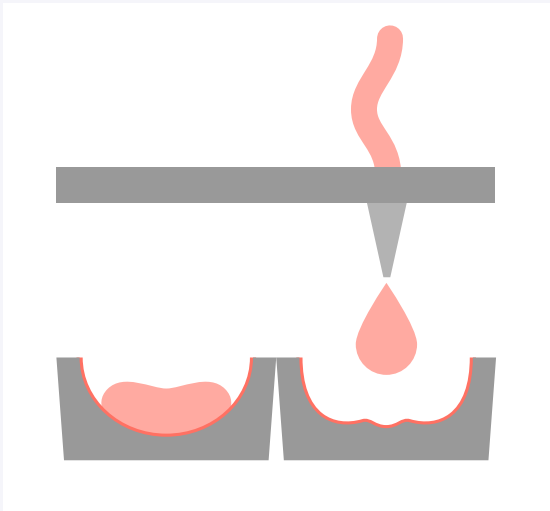

STEP 1

The mould is cleaned and sprayed with silicone lubricant.

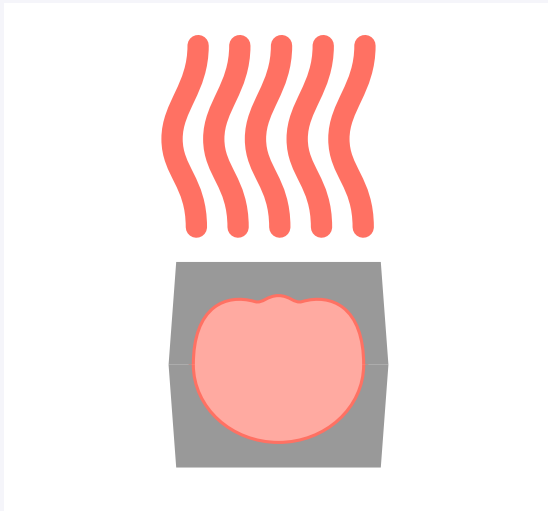

STEP 2

To make sure that the stress balls come out nice and bright, the mould is coated with the correct colour for the finished item and baked in an oven.

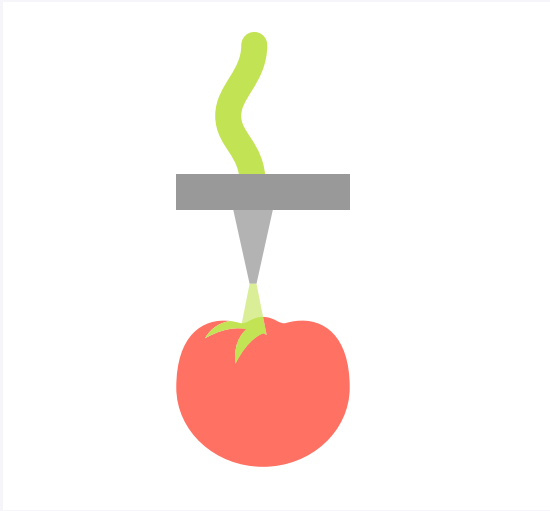

STEP 3

Special foam is poured into the mould. The foam will expand so the mould doesn’t need to be completely full.

STEP 4

The mould goes into an oven again, this time to let the foam cure and expand to form the shape.

STEP 5

After the stress ball has been removed from the mould and any excess foam has been cut away, the finishing details are painted on.

STEP 6

Your logo or message is applied to the stress ball and it’s ready to be packaged and shipped.

Find out more about how we print your stress balls [here](#).

Want to know about creating custom-made stress balls just for you? [Click here](#) to find out more.

ARTWORK GUIDELINES

To achieve the very best print quality we ask you to follow the artwork guidelines below.

ARTWORK FORMAT

.eps .pdf

PROVIDE ARTWORK IN A VECTOR-BASED FORMAT

T

CONVERT ALL TYPE TO OUTLINES

When customising your stress balls we ask you to supply us with the artwork you would like printed. Ideally we would ask for vector based artwork, saved as an EPS, AI or PDF with any fonts saved to outlines. If you don't have these formats we can convert the artwork for you from a high-quality file such as a jpeg, however this may delay your delivery date by a day or two. If you would like only text such as a web address we can do this or you in Arial font.

Calibri

IF YOU NEED US TO ADD TYPE WE WILL USE CALIBRI

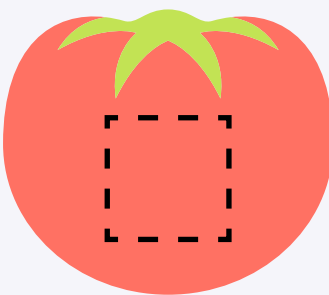

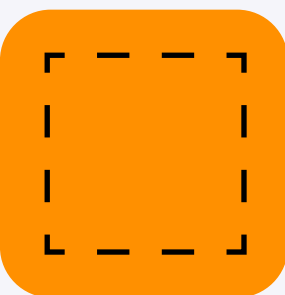

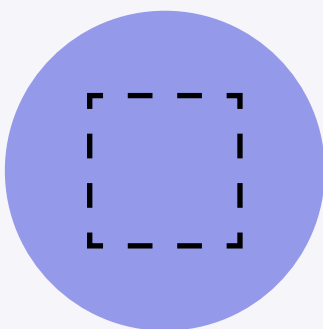

PRINT COLOURS

SPECIFY COLOURS USING THE PANTONE® COLOUR SYSTEM

To ensure the print colour is to your satisfaction we also ask for the pantone codes for the colours within your print. You should be able to find these in your brand guidelines or from your marketing department but if not, we can help you find a similar match.

PRINT SIZES/AREAS

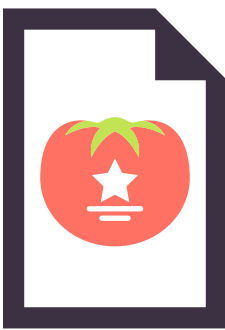

THE PRINT AREA IS DEPENDENT ON THE SHAPE YOU CHOOSE
DETAILS ARE ON EACH PRODUCT PAGE

Each stress ball has a different sized print area, these can be found on each product page, under product specification. Some stress balls can be printed on one side, two sides or on a shape like the cube on all six sides.

Please note the print sizes shown are for a pad print, if a different print method is required the print area may be smaller.

VISUALS

WE PROVIDE AN ELECTRONIC VISUAL
SHOWING YOUR LOGO IN POSITION

Within a few days of the order being confirmed we will send you an electronic visual of the stress shape showing the size, layout and colour of the print for your approval. We will always use the maximum print area available for that shape.

We can also provide a pre-order visual if you would like to see the size and layout of the logo before placing the order. To request this please use the enquiry form or email us with the stress ball shape, colour and artwork file. We are unable to provide pre-order visuals of bespoke shapes, please see our bespoke pages for more information.

Need help with your artwork? Just give us a call on
+44 (0) 870 350 5008 and and talk to one of our friendly staff.

ALL ABOUT US

Conceived in early 2006, Stress Balls UK is fast becoming one of the leading stress ball suppliers in the UK. We are experts in our field and as stress balls are what we specialise in, our knowledge and service cannot be beaten.

We work with many large high-profile companies on a daily basis who trust us to deliver the service and products they demand and we always aim to exceed our customers expectation. This results in loyal our customers coming back to us time and time again.

We are unique that we offer both the high quality, UK manufactured stress balls and that we also supply the more cost-effective imported stress balls. This allows us to offer a variety of products at a price to suit any budget. As stock of the imported balls is held in the UK this eliminates the risk of late deliveries and import delays so you can trust that your delivery will arrive when we promise. We can also source direct from the far east if you require a certain pantone colour of one our imported balls.

The UK manufactured stress balls are made from slow-release stress foam which are by far the best quality items you will come across in your search for a stress ball. Made to order they also offer you a wider variety of colours to choose from.

Rest assured that Stress Balls UK are the stress ball supplier of choice.
Customer satisfaction is our number one priority - We will not let you down!

RETURNS & REFUNDS

We want you to be entirely happy with your order, if you are not please contact your account manager so we can look into the issue for you.

CANCELLATIONS

All orders can be cancelled up until the artwork confirmation has been approved. Orders for plain stock items can be cancelled or returned for a refund within 14 days of order. Please note all UK items are made to order and are excluded from this.

RETURNING YOUR ITEMS

We want you to be delighted with your order, however if for any reason you wish to return your items, please do so within 14 days of receiving your order for a full refund, exchange, or credit note.

All items must be returned in their original packaging and in a re-saleable condition.

Goods that are not faulty will be returned at your cost.

All printed or made to order stock is non-returnable due to the bespoke nature of the print. These are considered personalised goods made to your specifications and cannot be re-sold to anyone else.

DAMAGED OR FAULTY ORDERS

For orders which have been damaged in transit please inform us within 48 hours of delivery. For any orders deemed to be faulty, please inform us within 7 days of receiving the items.

RECEIVING YOUR REFUND

All refunds will be made within 30 days of receiving and checking the returned goods. If the products are deemed damaged and/or unsaleable then the goods will be returned and no refund given.

EXCEPTIONS

All printed stock is non-returnable due to the bespoke nature of the print. All UK manufactured goods are also non-returnable as these are made to order. These are considered personalised goods made to your specifications and cannot be re-sold to anyone else.

If there is a print error deemed to be our fault we will offer to re-print the products or provide a refund as above. Please note that we will require photos of the items for us to assess before you return them to us and any liability is agreed.

DELIVERY

Getting your stress balls to you as quickly as possible is our main priority, but there are some logistics involved.

PLAIN STOCK ITEMS

2-3 DAYS

Unprinted stock items can be delivered to a UK mainland address in as little as a few days. Please [contact us](#) to check our current stock levels.

PRINTED STOCK ITEMS

2-3 WEEKS

Our factories aim to run at full capacity at all times to enable us to offer you the very best value. Standard lead times for stock items is 2-3 weeks and for UK manufactured goods made to order around 3 weeks from order. If you need your stress balls sooner than this, don't despair - contact us and we will do our very best to help.

MANUFACTURING ITEMS TO ORDER

3-7 WEEKS

We are one of the only suppliers who can source stress balls made in the UK and also in the Far East, which gives you, access to one of the largest selections of stress balls for sale in the UK. However, manufacturing stress balls isn't as easy as 1-2-3, so it can take around three weeks from order (for UK made items) and for imported goods (from the Far East) around seven weeks. The lead times can vary depending on our production schedules so please contact us to check our current lead times.

BESPOKE ITEMS

6-10 WEEKS

As we source from both the UK and the Far East, we can deliver bespoke items sometimes as quickly as six weeks (for UK made), but more detailed shapes shipped in from the Far East, this can take up to ten weeks from order, so it's best to plan ahead if you want a bespoke stress ball for your next event.

SHIPPING COSTS

All shipping costs can be seen on the website when doing a quotation on the product page. All shipping prices are to one UK Mainland address, please contact us for split delivery prices or for shipping overseas. For shipping abroad please email us or fill in an enquiry with the full address and we can advise of shipping costs and lead times.

ORDER TRACKING

Where possible we will email you a tracking link on the day of dispatch so you can stay up to date with the progress of your stress ball delivery.

ENVIRONMENTAL POLICY

We recognise that our activities have an impact on the environment and we are committed to minimising or offsetting our environmental footprint.

WE MEET THE CARBON FOOTPRINT STANDARD

Following an assessment of the emissions involved in manufacturing and shipping our stress balls, the emissions are offset through carbon offsets projects that meet the leading international standards currently approved by the Quality Assurance Standard (QAS) for Carbon Offsetting.
